# ENHANCED CURRICULUM

“At Oryx International School, we understand the importance of nurturing individual interests and fostering the holistic development of students. That's why our extracurricular activities are carefully designed to provide students with the opportunity to learn, explore, and develop new interests beyond the classroom. After an intense day of classes, these activities allow students to pursue areas of interest that go beyond the traditional curriculum.

From sports to drama, music, art, science, and much more, we offer a diverse array of options that enrich the growth and learning of your children.

These activities not only complement formal education but also inspire creativity, promote teamwork, and foster personal development.

Our ASA program is built around our School Values and align with the Qatar's Values. We want our students to be respectful & responsible citizens and show appreciation in the work they produce. We want our students to always strive to get better each day”
