ASA PROGRAMME

SNACK LAB

Where tasty meets twisty! Kids explore the science behind snacks — mixing, fizzing, freezing, and munching their way through edible experiments. It's curiosity you can chew on.

KG | YEAR 1-6
QR 495

LEGO & ROBOTICS

Build, code, and create with LEGO! From WeDo 2.0 and EV3 for budding engineers, kids explore robotics through playful challenges and smart teamwork. It's imagination powered by tech!

YEAR 1 - 6

JUNIOR ENGINEERS

Think it, build it, test it! Kids become mini inventors using everyday items like cardboard, string, cups, and tape to solve fun challenges. From bridges to catapults, it's hands-on engineering with big imagination and zero fancy tools.

YEAR 1 - 6

30 SEPTEMBER - 2 DECEMBER
9 WEEKS
TUESDAYS | 2:15-3:00PM

HANDS - ON SCIENCE

Science isn't just something you read about — it's something you do. With every pop and fizz, kids unlock the secrets of the universe through messy, magical experiments. It's hands-on learning that sticks (sometimes literally).

KG | YEAR 1-6
QR 495

ART SMART

Art with a brainy twist — integrating STEM concepts, design thinking, and visual storytelling. Projects might include symmetry in design, digital art with Canva, geometry-inspired patterns, or science-themed illustrations.
